MINOR ALTERATIONS CAN BE MADE BY BUILDERS. It is impractical to change the tracings of the master plans to show alterations for individual cases. However, minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually costs several times the price of our stock plans.

Select Your Fireplace

With Full Information

Our top recommendation for year-round satisfaction is the Donley Heatsaver Fireplace, that circulates heat (more than you expect) from outlet grilles that may be placed in the immediate room or other rooms, combining the charm of an open fire with the efficiency of a small furnace . . . Many small homes are adequately heated by the Heatsaver alone. In larger homes it brings comfort during chilly "between" seasons. Burning any solid fuel, it is a godsend when more complicated heating devices fail . . . But if your choice is a simple masonry fireplace, it makes a lot of difference how it is planned and built. The Book of Successful Fireplaces is a standard guide for architects and has brought fireside happiness to thousands of homes . . . Now about outdoor fireplaces—Everyone enjoys hot meals cooked in the open, also a bright evening glow lighting lawn and garden. Outdoor Fireplaces, How to Build Them, tells you how to avoid mistakes and get the most from your barbecue investment.
